

CITIZEN COMMENT FORM

**Brownfields Community Outreach Meeting
St. Paul's United Methodist Church- 207 West Louise Street
November 25, 2014, 5:00 to 6:30 PM**

The U.S. Environmental Protection Agency (EPA) Brownfields Program provides direct funding to eligible recipients for brownfields assessment, cleanup, revolving loans, and environmental job training. EPA Brownfields Assessment Grants permit cities to inventory, characterize, assess, and plan the reuse of brownfield properties within their community.

The City of Waterloo is applying for FY 2015 Hazardous Substances and Petroleum Assessment Grant funding. Citizen participation is a critical component in the application selection process. As such, we need your help in identifying future targeted brownfields areas!

We will give careful consideration to all of the comments and information received. Thank you for your participation!

-
- 1) Are you aware of any **potential brownfields sites** within the City of Waterloo?
Please provide as much detail as possible (e.g. address, current/former business name, current/former uses, etc.)

2) Where should the City of Waterloo **focus its redevelopment efforts** (e.g. areas characterized by a significant concentration of vacant, underutilized, or blighted properties)?

Please print the following information:

Name: _____

Address: _____

Phone: _____

Email: _____

Business name if a business owner or representative: _____

*Please return completed comment sheets to a member of city staff.
